CONGRATULATIONS!

This edition of the Consumer and Business Guide reflects thousands of major changes that have taken place in the area during the last year.

Since the publication of our first directory decades ago, we have grown to become the premier publisher of accurate, cost-effective cross-reference directories. Our print editions are now available in over 300 markets totaling more than 40 million listings. Cross+Search Plus, our CD-ROM version, will soon be available nationwide.

This directory is designed with one purpose in mind: To provide you, our customer, with the most comprehensive and accurate information available on area residents and businesses.

All of the listings in this guide are gathered from public record sources. We carefully piece together information from such diverse sources as the local telephone company, property records, United States Census Department, Direct Marketing Association, and the US Postal Service to create this unique publication.

Market Planning Section Overview

You'll find five special reference tables in this section to assist you in identifying areas with high concentrations of your best prospects.

Some of these tables use United States Census data at a census tract level. Census tracts are small, statistical subdivisions of a county that average about 2,500 to 8,000 residents. Local committees define the census tract boundaries, which contain bordering neighborhoods. Census tracts are intended to contain relatively similar neighborhoods in respect to population characteristics and economic status. While the local committees and United States Bureau of Census have assigned census tracts to be as internally consistent as possible, it should be noted that Census data is based on averages. Individual households will, of course, vary from the neighborhood averages.

Glossary of Terms

Relative Affluence Rating- This rating has been developed based on census data such as household income, value of owner-occupied housing, and household rent. The ratings are:

5$ (or $$$$$) – Well above average
4$ (or $$$$) - Above average
3$ (or $$$) - Average
2$ (or $$) - Below average
1$ (or $) - Well below average

Median Income $1000's- This value divides the distribution of household income into two equal parts. For instance, a median income of $40 indicates that 50% of the households earn more than $40,000 per year, and 50% of the households earn less than $40,000 per year.

Median Home Value $1000's- This value divides the distribution of home values into two equal parts. For instance, a median home value of $80 indicates that 50% of the homes are valued at more than $80,000 and 50% of the homes are valued at less than $80,000.

Median Year Homes Built- This value divides the distribution of year homes built into two equal parts. For instance, a value of 1972 indicates that 50% of the homes were built before 1972 and 50% of the homes were built after 1972.

Percent Householder over 55- This value shows the percentage of householders over 55 years old. For instance, a value of 30 indicates that 30% of the householders are over 55. The Census Department designates one person in each household as the householder. In most cases, this is the person in whose name the home is owned, being bought or rented. If no such person in the household exists, any adult household member 15 years old and over is designated as the householder.

Percent Households with children- This value shows the percentage of households with children. For instance, a value of 20 indicates that 20% of the households have children. Children may include a son or daughter by birth, a stepchild, or adopted child under the age of 18 living at the residence.

If You Market to Consumers...

On October 1st 2003 the Federal Government may begin enforcing new "do not call" (DNC) requirements and bring legal action against companies that make telemarketing sales calls to residential telephone numbers that appear on the National Registry.

What You Need To Know:

- The new Federal Regulations apply to both intrastate and interstate calls.

- With few exceptions. it is against the law to call (or have a telemarketer call) any number on the Registry unless your company has an established business relationship with the consumer you are calling or the consumer has given your company written permission to call.

- If your company wants to use the telephone to prospect for new business by calling consumers, you **MUST**:
  a) Register with the Federal Government by visiting their website at **www.ftc.gov**
  b) Obtain your own Do Not Call List(s) for the area codes in which you'll make calls. Data for up to five area codes will be available for free. Beyond that there is an annual fee of $25 per area code of data.
  c) Screen the telephone numbers you call against the Do Not Call Lists.

- After October 1st, your company could be subject to fines up to $11,000.00 per violation.

How We Can Help:

- We have a CD-ROM version of this Cross-Reference Directory (Cross+Search Plus), which enables you to easily mark the telephone numbers that you download from the National Registry with a few mouse clicks.

- We encourage you to contact a Hill-Donnelly Representative for further information on how we can help you grow your business and comply with the new Federal Regulations.

Also, for the convenience of our customers who use direct mail to consumers to sell their products, we identify residents that have registered their preference not to receive direct mail solicitations.

The Direct Marketing Association (DMA) maintains a list of households that do not wish to receive mail solicitations. Residents that appear on the current DMA list at the time of publication are identified with a symbol ("■") to the left of the listing name in both the Location and Numeric Sections of this directory.

For specific information about current state and federal marketing laws contact the Direct Marketing Association. The DMA website is www.the-dma.org. The DMA Consumer and Government Affairs Departments can be reached at (202) 955-5030.

Explanation of Tables

#1- Counts by Community
This table provides the number of residential and non-residential listings included in each community in this publication. The number of new and changed listings also is included. Use this table to determine which communities have the highest population concentrations and new mover activity.

#2- Counts by Community and Census Tract
Use this table to gain a better understanding of the population characteristics within communities. Most of the communities in this publication are listed along with key census demographics for their corresponding census tracts. Please note that some census tracts may be listed in multiple communities. In this table, the residential listings counts are based upon the number of households within the community that are assigned to the indicated census tract. Some households within a community may not be assigned to a census tract.

#3- Counts by Postal ZIP Code
This table provides the number of residential and non-residential listings included in each ZIP code in this publication. The number of new and changed listings also is included. Use this table to determine which ZIP codes have the highest population concentrations and new mover activity. Once you've decided on the ZIP code(s) to target, the Location Section ZIP Code Index will assist you in locating the desired streets in your market area.

#4- Counts by ZIP Code and Census Tract
Use this table to gain a better understanding of the population characteristics within target ZIP Code(s). Most of the ZIP Codes in this publication are listed along with key census demographics for their corresponding census tracts. Please note that some census tracts may be listed in multiple ZIP Codes. In this table, the residential listings counts are based upon the number of households within the ZIP Code that are assigned to the indicated census tract. Some households within a ZIP Code may not be assigned to a census tract.

#5- Counts by Census Tract
Use this table to gain a better understanding of the population characteristics within target census tract(s). Once you've decided on the census tract(s) to target, the Location Section Census Tract Index will assist you in locating the desired streets in your market area. Some households within this publication may not be assigned to a census tract.
